

Inside Out Community Garden

Affecting Change From The Inside
Out

Reducing Green House Gas Emmissions.

- Planting drought tolerant foliage
- Organic soil
- Composting Recycling
- No pesticides
- Planting trees

Garden Location

Sunset Community Center Community Garden Project

Designs By: Kathryn Kelly, Program Assistant II, Fresno EOC Local Conservation Corps

Fresno **Economic Opportunities Commission**
Local Conservation Corps

The background image shows a lush garden with several fruit trees. A large, dense tree with green leaves and small red fruits is in the upper left. To its right is a smaller tree with green leaves and red fruits. In the foreground, there is a large, bushy plant with green leaves. The semi-transparent circular overlay is positioned on the left side of the image, containing text and a list of new additions.

Chinese Jujube

Desert Peach
