TCC CONNECTOR

ROUTE 38 INCREASED TO 15-MIN FREQUENCIES

TCC Connector – Service Improvements ROUTE 38

Service on route 38 is currently operating at 30 minute frequencies. These costs are associated with adding another 30 minute frequency thus creating 15 minute service within the project area.

TCC CONNECTOR

ORIGINAL PROJECT DESCRIPTION

The City of Fresno, Department of Transportation, FAX will increase transit frequencies from 30 minutes to 15 minutes on Route 38 from Downtown to Jensen and Cedar. A portion of this service improvement will be located within the TCC Project Area. The service improvements within the Project Area will require additional bus drivers, the purchase of two electric buses, and the construction of an electric charging station.

TCC CONNECTOR

SERVICE BEGINS

The TCC Connector service improvement began 1/4/21 with the deployment of two additional buses on Route 38. Initially, near-zero CNG buses were deployed. FAX will soon receive two battery electric buses which will replace the CNG buses on the route in late summer 2021.

**Starting Monday,
January 4, 2021**

**Route 38 will operate
on increased frequencies.**

38

**All of Route 38
will operate on
15-minute frequencies from
approximately 6 a.m. to 6 p.m.
Monday through Friday.**
